PROJECTS

SALESOPTIM

CRM Web Application

- Developed the full front-end of SalesOptim, a robust and scalable CRM web application, now actively used by **10+ companies** and **200+ employees**.
- Developed the full front-end of SalesOptim, a comprehensive **CRM web application** hosted at **salesoptim.com.**
- Added various modules including lead dashboard, sales dashboard, quotations, sales reports, lead reports, live tracking, meetings, contacts, and email integration.
- Implemented features like password recovery and user authentication to enhance user experience and security.
- Designed and developed three types of user panels: **Super Admin, Admin, and Employee**, each with tailored functionalities and access levels.
- Continuously working on the project to add new features and optimize existing functionalities.
- Delivered measurable impact: users reported significant savings in **time** and **cost**, along with improved lead management and operational efficiency.

BRIGHTLINK WEBSITE

Company Website

- Created the official website for Brightlink Info Technologies, available at **brightlinkinfotechnologies.com**
- Developed a dynamic, eight-page React website including Home, About Us, IT Services, Recruitment, Product, Blog, Career Page, and Contact Us.
- Integrated click-to-call and email functionality to enhance user engagement and communication.
- Optimized for SEO, leading to a noticeable increase in **website users and client inquiries** post-launch.

PERSONAL PORTFOLIO WEBSITE

Portfolio Website

- **adityaloharportfolio.netlify.app**
- Developed a personal portfolio website using React to showcase my skills, projects, and professional background
- Included comprehensive sections such as Introduction, Education, Experience, Projects, Technical Skills, and a Contact Us form.
- Showcases my professional capabilities and the projects I have worked on, offering potential employers or clients an insight into my skill set and experience.
